

AI WEBSITE AUDIT / SMALL BUSINESS READINESS

Your AI search readiness report

ecserviceprovider.com

Prepared by Illusion on 2026-05-25

78 Overall	100 User Experience	67 SEO / Local	68 AI Search
----------------------	-------------------------------	--------------------------	------------------------

Executive summary

The site is crawlable, but the highest-leverage fixes are about clarity, trust, and structured business signals. Prioritize the high-severity items first so visitors and AI answer engines can quickly understand who the business serves and how to contact it.

The fastest wins are usually clarity, trust, crawlability, structured data, and answer-style content - not expensive enterprise theater.

Why this audit matters

Customers are starting to search differently. Instead of only typing keywords into Google, many now ask AI tools direct questions like 'who should I hire?' or 'what company can help me with this?' To show up in those answers, your website needs to make your business easy to understand: clear services, location or audience signals, trust proof, structured content, and obvious next steps.

This audit checks whether your site gives Google and AI tools enough information to confidently understand and recommend your business.

Top fixes to prioritize

1. Add a meta description: Add a one-sentence description of who you help, what you do, and how to contact you.
2. Add one plain-language H1: Use one headline that says exactly what the business is and who it serves.
3. Add LocalBusiness or ProfessionalService schema: Add JSON-LD with business name, URL, phone, address/service area, opening hours, and sameAs profiles.

What Illusion checks

Service clarity, location or audience clarity, trust signals, crawlability, structured data, FAQ answerability, CTA clarity, content depth, and AI crawler access. This PDF does not include Lighthouse or Core Web Vitals testing.

How Illusion helps after the audit

Illusion helps small businesses answer a simple question: when potential customers ask Google or AI tools for recommendations, does your business show up - or do your competitors? The first step is making sure your website clearly explains what you do, who you help, why someone should trust you, and how to contact you.

Once the basic website fixes are live, Illusion can track whether AI answer engines actually mention the business for the questions customers ask.

Detailed Findings

1. Add a meta description

MEDIUM / SEO

Evidence: The homepage has no meta description.

Fix: Add a one-sentence description of who you help, what you do, and how to contact you.

Expected impact: Improves click appeal in search and gives AI summarizers a clean business description.

Effort: low

2. Add one plain-language H1

HIGH / CONTENT

Evidence: The homepage does not have a visible H1 heading.

Fix: Use one headline that says exactly what the business is and who it serves.

Expected impact: Makes the page easier for visitors and answer engines to classify.

Effort: low

3. Add LocalBusiness or ProfessionalService schema

HIGH / STRUCTURED DATA

Evidence: Detected schema types: none

Fix: Add JSON-LD with business name, URL, phone, address/service area, opening hours, and sameAs profiles.

Expected impact: Structured data helps Google and AI systems confidently identify the business entity.

Effort: medium

4. Improve image alt text coverage

LOW / SEO

Evidence: 22/56 crawled images had alt text.

Fix: Add descriptive alt text to important images, especially logos, team photos, service graphics, and trust badges.

Expected impact: Improves accessibility and gives crawlers more context.

Effort: low

5. Publish or expose a sitemap

LOW / TECHNICAL

Evidence: No sitemap URLs were found from /sitemap.xml or robots.txt.

Fix: Generate a sitemap.xml and reference it from robots.txt.

Expected impact: Helps search engines and AI retrieval systems discover important pages.

Effort: low

Signals And Pages

Business signals

Signal	Status
Crawlable email or phone	Present
Visible call to action	Present

Contacts - EC Service Provider LLC https://ecserviceprovider.com/contacts/	status 200 / 240 words / 1 H1 / 0 schema
Packages - EC Service Provider LLC https://ecserviceprovider.com/packages/	status 200 / 441 words / 1 H1 / 0 schema
Media - EC Service Provider LLC https://ecserviceprovider.com/media/	status 200 / 308 words / 1 H1 / 0 schema

Suggested next step

Fix the top 2-3 issues first, then rerun the audit. The goal is to make the site easier for customers, Google, and AI answer engines to understand before investing in heavier SEO or AI visibility work.
